Water always finds a Way down. RHEINZINK has the perfect Solution!

So much to choose from - this applies to all of our RHEINZINK-Products. Even gutters and downpipes are more diversified than you might think – simple or ornate – CLASSIC bright rolled, prePATINA blue-grey or prePATINA graphite-grey. Plus all kind of accessories: an efficient protective screen, an economical and environmentally-friendly rain-water collector and an extra-sturdy stand pipe.

Comprising over 500 parts, our roof drainage system is the most comprehensive on the market – by far! This means: no compromises – even when it comes to special requests, requirements or shapes. It also means that you can benefit from the competence of a market leader. And ... that you can depend on the proven system of a reliable brand. Our preweathered surfaces are unique worldwide. A uniform, ready-made zinc patina ex works without impairing the natural patination process. This elegant and stylish finish offers lasting protection and can even smooth out scratches over time.

Environmentally-friendly – without Compromise. A Lifetime of Consistency.

The RHEINZINK roof drainage system is made entirely of RHEINZINK. It is durable, completely maintenance-free and impresses with its exemplary life cycle assessment. It is a long-term investment that will give enjoyment for generations to come.

This natural material also cuts a fine figure when it comes to our extensive range of accessories. For example, the RHEINZINK-Rain Collector will collect at least 60% of rainfall, which can then be used for watering your garden. So saving you money while also being easy on the environment.

ONE BRAND – 3 PRODUCT LINES

**A perfect solution
for every requirement**

To give you even more design freedom, we offer our material in three different product lines and in numerous finishes. You get the perfect solution for every requirement with the trusted RHEINZINK quality. All products exceed the high standards of EN 988 and the TÜV QUALITY ZINC criteria. The high level of manufacture is guaranteed by constant inspections and extensive laboratory tests. On this double page, we have summarised the characteristic features of our three product lines. On request, we will gladly send you samples of material.

RHEINZINK-CLASSIC

**The natural material
in its most original form**

RHEINZINK-CLASSIC is the most original of all material options. The bright rolled version has proven itself for over 50 years of application. Depending on the weather conditions, over time a typical blue-grey patina is formed on the naturally shiny metallic surface. The patina gradually becomes more and more distinctive and develops a unique surface character.

prePATINA

THE WORLD'S ONLY NATURALLY PRE-WEATHERED SURFACES

Only RHEINZINK has a special process in which the blue-grey or graphite-grey colour of the natural patina is achieved naturally in production. As the inventors, we called this unique pickling process "pre-weathering". Virtually imperceptible to the human eye, atmospheric influences over time create a natural protective patina that reliably protects the product. In production, any use of artificial coatings, varnishes or phosphating is avoided completely. The prePATINA line products are the only ready-made natural surfaces in the entire global zinc construction market.

Natural weathering compensates for any installation-related scratches. Only the RHEINZINK-prePATINA and the RHEINZINK-CLASSIC lines offer this self-healing effect. They are environmentally friendly and absolutely maintenance-free.
